OLTC Receives D2L Innovation Award in Teaching and Learning

The Society for Teaching and Learning in Higher Education awarded Matthew Dunleavy, Georges-Philippe Gadoury-Sansfaçon, Dr. Jessica Riddell, Toni Roberts, and Scott Stoddard the prestigious D2L Innovation Award in Teaching and Learning for the creation and expansion on the OLTC program from 2020-22.

The D2L Innovation Award in Teaching and Learning recognizes and celebrates excellence in collaborative teaching and learning in post-secondary education. While educators are encouraged to cultivate collaborative approaches to student learning, they must also be encouraged and supported to engage in collaborative teaching.

On June 7th, the team will join the four other 2022 winners at pre-conference retreat to share innovative practices. The next day, Cécilia Alain (Bishop's OLTC Student Champion, 2021-22) will join the team at a post presentation for "**Working with Students to Co-Design 21st-Century Classrooms: The Online Learning & Technology Consultants (OLTC) Program.**"
